

Enrichir sa prise de parole

To begin with, I'd like to point out that...

First of all / Firstly / To start with...

Get started

First of all, I would like to say that...

It cannot be denied that...

How to check somebody has understood you

Did you get my point?

Do you see what I mean?

Does it make sense?

I'm sorry, I didn't hear / catch (informal) what you said.

Would you mind repeating what you said?

Could you repeat, please?

When something is not quite clear

Are you saying that...?

May I interrupt you? What do you mean by...?

Excuse me, did you say that...?

Actually...

Clearly / Surely...

Well, there is no doubt that...

It seems to me that...

As far as I know...

I suppose...

Expressing certainty

Expressing fair probability

How to express your opinion

Strong opinion

In my opinion / In my view / To my mind...

I can't help thinking that...

As far as I am concerned, I think that...

I strongly believe...

I definitely think...

Yes, I suppose so, however...

That's worth thinking about...

Yes, sure, but...

Do you really think so?

Yes, up to a certain point.

How to half agree

I've got mixed feelings about that.

Well, in a way, but...

I only agree up to a point really...

Well, it depends.

Yes, in a way...

That's absolutely true!

That's a good point.

How true!

Exactly!

Sure!

How to agree strongly

I couldn't agree more.

That's exactly what I think.

That's just how I see it myself.

That's right!

Do you really believe...?

Well, I'm not so sure about that.

Well, I don't think so.

Well, the way I see it...

How to disagree politely

Don't you think that...?

Well, I think it depends (on)...

I wonder whether that's the case / that's right.

Well, if you ask me...

It may be true, but...
